We've buried forever the party of fraud,
Sing the doxology—"Praise the Lord."

SOCIALITIES.

Col. Fenton Sims, of Cadiz, is attending Court.
Mr. Ben Rosenbaum, has gone East to buy goods.

Mr. Jos. Fry has gone East to lay in his spring stock.

Mr. C. B. Bostwick left for Russellville the first of the week.

Dr. Will Radford, of Longview, was in the city Tuesday.

Mrs. Thos. L. Graham left Wednesday on a visit to the N. O. Exposition.

Mr. and Mrs. J. W. Pritchett left today to visit the New Orleans Exposition.

Mrs. Montgomery Adams, of Church Hill, is convalescing, after a severe spell of illness.

Misses Emma and Lee Campbell left Wednesday to visit the New Orleans Exposition.

Mrs. Robt. Holland, a charming young widow, of Paducah, is in the city visiting her father, Mr. F. M. Whitlow.

Miss Clara Pratt left last Monday for her home in Lancaster, Ohio, whither she was called by the illness of her father.

Mr. Jas. S. Parish, of Oak Grove, attended court the first part of the week. His Hopkinsville friends are always glad to see him.

Mr. and Mrs. Stephen Long, of Russellville, spent several days in the city this week. Mr. Long was called to the city by business in Circuit Court.

Dr. Jno. P. Bell, of Longview, returned from Medical College at Louisville, Tuesday, a full-fledged M. D. He won the Yandell Medal, the first prize, in a graduating class of 75, and had a position offered him in the hospital at Louisville. He will probably hang out his shingle at his home near Longview, as the recent death of Dr. Clardy has made an opening there for a good doctor.

Lotus Literary Society.

The exercises of this society occurred as usual on Friday evening.

PROGRAM.
Music—Miss Lizzie Givens.
Reading—Miss Hattie Mathis.
Essay—Miss Annie Smith.
Music—Miss Annie Rust.
Reading—Miss Hattie Hanberry.
Music—Miss Ida Burks.
News and Notes—Miss Carrie Cox.
Music—Miss Sallie Rust.
Criticism—Prof. Daniel.

The proceedings were better than usual. The young ladies show much talent and taste in these entertainments which are of a solid, substantial character.

A vote of thanks was tendered to Mr. Chas. M. Meacham, editor of the SOUTH KENTUCKIAN, for copies of his paper containing the history of the war in the Soudan.

VISTOR.

"The Bride's Fate," by Mrs. Emma D. E. N. Southworth, just published by T. B. Peterson & Brothers, is the sequel to her "Changed Brides," and is one of her greatest and strongest novels. It is a mine of startling incidents and possesses absorbing interest, gladly contrived, its main theme being the restoration to Drusilla, the heroine, of her husband, Alexander Lyon, through the instrumentality of her baby son, one of the most delightful children ever depicted in fiction. Anna Lyon, Dick Hammond, Gen. Lyon, and, in fact, all the old characters, reappear, while many new personages give diversity to the fascinating narrative. The scene is laid chiefly in London and the immediate vicinity, and both high and low life are graphically described. Fashion and aristocracy are seen at a grand ball at the American Embassy. The Derby is depicted in a style of realism, and there is a highly dramatic duel, as well as a startling abduction. "The Bride's Fate" should be read by all who admire Mrs. Southworth's powerful books, which are now sold everywhere and should be found in every home and every public and private library, for they are certainly the most delightful and popular of all modern novels. "The Bride's Fate" is published in a large duodecimo volume, of 500 pages, uniform with "Self-Raised," and "The Changed Brides," at the low price of seventy-five cents, and will be found for sale by all Booksellers and News Agents, and on all Railroad Trains, or copies of it will be sent to anyone, to any place, post-paid, on remitting the price of it in a letter to the publishers, T. B. Peterson & Brothers, Philadelphia, Pa.

Mr. J. F. Hillman, commonly known as Cap Hillman, died at Aurora, Ky., Feb. 24th. He was formerly a well-known business man of Cadiz. He leaves a wife and four sons.

HERE AND THERE.

Howe's time is the city standard. We handle all kinds of paper bags and flour sacks.

The Baptist church has been piped for the use of gas.

The pavements on South Main need scraping very badly.

One representative to the penitentiary has already been elected.

FOR SALE—Residence South Main street. Apply to W. T. Tandy. As a Jeweler and optician, M. D. Kelly has the largest practical experience.

The grand jury has been at work on the Luther Radford case this week.

Bills of all kinds printed at this office on very short notice and at bottom prices.

Burning plant beds was the order of the day during the pretty days this week.

The foundations of nearly all of the burned buildings on Main street have been cleared of rubbish.

Mr. O. S. Stevens can still be found behind the counter of R. P. Stevens and would be glad to see his friends.

Good crowds have been in town every day this week, and business is opening up nicely for the spring trade.

Mr. Marcellus Garrett has been appointed constable of the Beverly district, to fill a vacancy caused by the resignation of Mr. Luther C. Radford.

There is talk of the City Council ordering South Main Street cut down several feet on the hill between the Baptist Church and College street.

In this issue we publish the first of a series of sermons by the local pastor. On next Friday we will give one preached by Rev. Wm. Stanley, of the Christian church.

Mr. Herman Hoffman, of Jamestown, N. Y., was here prospecting last week. He is a brick-mason and left again upon learning that work in his line could not be until May on account of the scarcity of brick.

Our new townman on the Palmyra road, Mr. Fritz Mielke of Watertown Wis., was visited last week by his son-in-law, Mr. Gottfried Kizlie and his friend Mr. John Brush, both of Watertown, Wis., who were prospecting about the feasibility of starting a cheese factory near town.

The grocery stock of Burbridge Bros., will be sold next week by the sheriff, under an order of the court, at public auction. Mess. Joe Merritt, C. M. Brown and I. Burnett were designated to make an appraisal of the stock.

Theo. Schalk and Clark Sharp, charged with running off mortgaged property to another State, were tried last Tuesday and held under a bond of \$200 each to answer the action of the grand jury. Mr. Sharp gave bond and Mr. Schalk went to jail.

Mr. M. Lipstine sold his vacant lot on west Main Street Wednesday to Mr. Jno. C. Latham for \$5000 cash. The lot is 20 feet front and 100 feet deep and adjoins Mr. Latham's lot on the north side. A fine building will be put on the lot in the early summer.

We notice in a late issue of the Memphis Appeal that our former townsman, Dr. W. M. Fuqua, was chosen to deliver the closing address to the graduating class of the Memphis Medical college, and made a very able effort, showing careful thought and study.

Mess. McKee & Co. have adopted the glorious American eagle, the king of birds, as their emblem and trade mark, and have erected a handsome sign-post in front of their grocery, surmounted by a gilt eagle with outstretched wings. It is something novel, unique and conspicuous, and will prove a very attractive sign for this enterprising firm, who have recently moved into new quarters on Main street.

Zeno F. Young, late of Madisonville, is now landlord of the Marshall House, Paducah, Ky. He has many friends all over the state, made while he was engaged in the newspaper business, who will wish him unbounded success in his new undertaking. If he dishes out "hash" as liberally and as satisfactorily as he served up the news to his subscribers, none of his guests will go hungry.

Miss M. V. Dudley, whose sweet little poems and entertaining letters from Louisville and other points have appeared in the SOUTH KENTUCKIAN from time to time for several years, has left Kentucky and taken up her residence in Arkansas. She promises that she will still communicate with our readers from her home in the Sunny South. Her entertaining contributions are always gladly received.

Nine years ago to-day Maj. Henry T. Stanton began printing at the head of the Frankfort Yeoman's editorial columns an epigram of from two to ten lines upon the most important item of the day's news, and has kept it up in the daily, tri-weekly and weekly, without missing a single issue. To-day he announces the discontinuance of this unique and interesting feature of this paper. The verses have been reprinted from Main to Texas, and as they now number about 2,000, The Times gives expression to its hope that Maj. Stanton will now embody them in a volume and thus preserve the most interesting metrical history of current events ever written.—Louisville Times.

CIRCUIT COURT.

Continues to Grind Out Justice.

The regular March term of Christian Circuit Court convened Monday, with Judge Jno. R. Grace on the bench. The Grand Jury was empaneled and charged. The names of the jurors were given in our last.

Valentine's Day.

Saturday being Valentine's day we copy the following from the Library of Universal Knowledge:

"The 14th of February, is, or more correctly was, celebrated in England, Scotland, and in different parts of the continent, particularly Lorraine and Maine in France, by a very peculiar and amusing custom. On the eve of St. Valentine, a number of young folks—maids and bachelors—would assemble together and inscribe upon little billets the names of an equal number of maids and bachelors of their acquaintance, throw the whole into a receptacle of some sort, and then draw lots, whereby each, of course, being taken that each should draw one of the opposite sex. The person thus drawn becomes one's valentine. Of course, besides having got a valentine for one's self, one became, by the universal rule of the practice, some other person's valentine; but, as Mission, a learned traveler in the early part of last century, remarks, the man stuck fast to his valentine that had fallen to him, than to her to whom he had fallen. These imaginary engagements, which may readily be supposed, often led to real ones; because one necessary consequence of them was that, for a whole year, a bachelor remained bound to the service of his valentine, somewhat after the fashion of a medieval knight of Romance to his lady-love. At one period it was customary for both sexes to make each other presents, but latterly the obligation seems to have been restricted to young men. During the 15th century this amusement was very popular in the upper classes, and in many European courts.

For some time back the festival—at least in England and Scotland—has ceased to possess the graceful meaning it used to have, and has become a considerable nuisance. "The approach of the day is now heralded by the appearance in the print sellers' shop-windows of vast numbers of missives calculated for use on this occasion, each generally consisting of a single sheet of post paper, on the first page of which is seen some ridiculous colored caricature of the male or female figure, with a few burlesque verses below. More rarely, the print is of a sentimental kind, such as a view of Ilymen's altar, with a pair undergoing initiation into wedded happiness before it, while Cupid flutters above, and hearts transfixed with his darts decorate the corners. Maid servants and young fellows interchange such epistles with each other on the 14th of February, no doubt conceiving that the joke is amazingly good; and generally, the newspapers do not fail to record that the London postmen delivered so many hundred thousand more letters on that day than they do in general."

The connection of the custom with St. Valentine is purely accidental. In the legends of the different saints, that name recorded in the Aeta Sanctum, no trace of the practice peculiar to the 14th of February is found. It has been suggested by Mr. Douce, in his Illustrations of Shakespeare, that the custom may have descended to us from the ancient Romans, who, during the Lupercalia, celebrated in the month of February, were wont, among other things, "to put the name of young women into a box, from which were drawn by the men as chance directed;" and that the Christian clergy, finding it difficult or impossible to extirpate this pagan practice, gave it at least a religious aspect by substituting the name of particular saints for those of the women; and it is certainly a usage more or less widely extended in the Roman Catholic church to select, either on St. Valentine's day, or on some other patron saint for the year, who is termed a valentine. But it is far more probable that the custom of choosing valentines is a relic of that nature-religion which was undoubtedly the primitive form of religion in w. Europe—as elsewhere; and that it sprang from a recognition of the peculiarity of the season. Hence the explanation, "about this time of the year birds choose their mates, and thence probably came the custom of the young men and maidens choosing valentines or special loving friends on that day." Valentines are now extensively manufactured, the demand being yearly on the increase.

1864-Pythian Period XXII-1885.

[Pythian Journal.]

Before another issue of the Journal reaches its readers another year of the existence of our Order will have closed.

Now at the beginning of a new Pythian Period, a brief resume of the rise and progress of our Order will be out of place.

The Order of Knights of Pythias is purely of American origin, founded upon American soil, by Americans, at a time when the nation was involved in a terrible civil war, gigantic in its proportions, in which family ties were completely severed; when father fought against son and brothers against brothers face to face in battle array. Malice, hatred, revenge and retaliation were the motives that inspired the actions of the thousands in all portions of our broad land. The influences of Friendship and Charity were ignored and despised. The need of just such an organization was then felt; something that would bind its members together in the strong bonds of Friendship. And it was a happy thought when our beloved-tombed Justice H. Rathbone, conceived the idea of founding such an institution and selected as a basis for his great work the history of the great friends, Damon and Pythias.

The first lodge was organized at the city of Washington, D. C., on the 11th of February, 1864. The young candidate for public favor was christened in the most mechanical manner of his day, who gave his best attention to the matter and then intimated his inability to execute what was required. Mr. Walter advanced money to Thomas Martyn, who thought he had made an important discovery; but the ideas of Martyn were not realized in practice. While engaged in the mechanical business of his day, he was called upon to give some of his new press, and was anxiously waiting for an opportunity to give some to his friends, and for a patron to conteminate and advance them. He had visited England in the hope of finding there the opening and the support which he could not obtain in his native country. He found a sympathizer in London, England, with whom he entered into an agreement in 1867. Two years later, when a working model of Koenig's improved press had been completed, Koenig brought the matter before Mr. Walter, who, for the moment, was so fully occupied with other engagements that he could not entertain a new scheme. In 1867 Koenig finished one of his new presses, and was the conductor of the principal London journals were invited to see it in operation. Mr. Perry, of the Morning Chronicle, a very shrewd man, and the editor of a most successful news paper, would not even accept the invitation, declaring that his own press was worth more than many years' purchase as would equal the cost of the new machine. Mr. Walter accepted the invitation, carefully examining Koenig's improved press, and at once ordered two double presses on the same model. Two years elapsed before these presses were constructed and at work. Koenig's new invention were circulated, despite the secrecy to which all concerned had been pledged, and the Times pressmen who believed that their means of livelihood would be at an end when a new press was applied to printing, vowed vengeance upon the inventor. The new presses were erected in rooms adjoining the offices of the Times, and were in operation. At six o'clock in the morning of the 29th of November, 1874, Mr. Walter entered the office with several damp printed sheets in his hand, and informed the startled pressman at work there that the "Times was already printed by steam!" That if they attempted violence there was a force ready to suppress it, but that if they were peaceable their wages should be continued to every one of them till similar employment could be procured. In proof of his statement he handed to them copies of the first newspaper which had issued from a steam press. The next day the Times was printed in operation.
